ALGO TRADING (Indian market)

Excelsior's algo software is the most promising algo trading platform in India for both bank nifty and nifty retail traders made with a simple vision.

How does it work?

- Minimum capital required is 80k
- Max draw down is 40k
- The ideal investment must be 5Lakh
- Can expect quarterly returns up to 30% to 40%
- The subscription fees are included as
 - * 5,000 for a month
 - * 14,000 for 3 months
 - * 25,000 for 6 months
- Also account management is provided in case client doesn't have enough time to monitor the account.

Almost we have generated 600% plus returns in this year,
For reference download our P&L statement through our website www.tradexcelsior.com.

Pool Account

A pool account is a type of account that allows multiple investors or clients to pool their funds together for investment purposes, managed by Algo and overlooked by professional trader.

The client who wants to start algo trading with an investment of 5 lakh, who lack confidence or one who's investment is not more than one to two lakh can invest in the pool account where the minimum investment is 50k and observe for 3 to 6 months, later once you gain confidence create your own account or increase in pool account
